

# Now United - Somebody

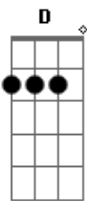

tom:  
 Say you're doing better lately  
 But driving by my house daily  
 Like we used to do  
 Did you find the missing piece  
 When you let go of me  
 And made her a part of our lives  
 'Cause it was more than one night  
 And I don't wanna need somebody else  
 If I need him like I need you  
 Took me long enough to leave you  
 So you keep tellin' me you love me  
 I put you first, put you above me  
 So take everything you want from me then leave  
 Take everything you want from me then leave  
 I know you only love to hurt me  
 Then come right saying that you're sorry

So take everything you want from me then leave  
 You're only making room for somebody  
 Somebody else  
 So I'm doing better lately  
 'Til you came around and tried to ruin my life  
 You're not changing my mind  
 And I don't wanna need somebody else  
 If I need him like I need you  
 Took me long enough to leave you  
 So you keep tellin' me you love me  
 I put you first, put you above me  
 So take everything you want from me then leave  
 Take everything you want from me then leave  
 I know you only love to hurt me  
 Then come right saying that you're sorry  
 So take everything you want from me then leave  
 You're only making room for somebody  
 Somebody else
