Wake up, there's a new day dawning  
 I think I'll take a little walk for a while  
 I need shades cos the sun is blinding  
 And I can see for miles and miles  
 Yeah I can feel the earth beneath me  
 I lie down we are as one  
 They look but they cannot find me  
 I'm off and heading for the sun

## Acordes

I'm getting colder, I feel a chill in the air  
 There's a change in the weather  
 Here it comes again,  
 now I can feel the rain

The wind that brings on the change is taking me over  
 The wind that brings on the rain is making me older
