 Intro: .: G C C Am G x2

you're never gonna get along hangin' out thinkin' out loud
 you're never gonna get it on be someone stuck in that crowd
 so you call out, feel it, ya hope that don't never exist
 but don't be ashamed of your bones and your blisters
 so come on, come on my brothers and sisters

cos you can only be what you are
 cos you've got the heart of a star
 but the light never hit ya
 so i say come on, come on my brothers and sisters

if you could see what i could see maybe we could all get along
 and maybe i could justify the bad things in life that i've done
 so i call out the feeling i know that don't never exist
 i won't be ashamed of my bones and my blisters
 so come on, come on my brothers and sisters

cos you can only be what you are
 cos you've got the heart of a star
 but the light never hit ya
 and i said come on, come on my brothers and sisters

and the slower that you go, the greener the grass grows
 and what we all need is love in our lives
 so go about your business, cos life aint your mistress
 so come on, come on my brothers and sisters

cos you can only be what you are
 cos you've got the heart of a star
 may the light never hit ya
 so be all you can and just hold up your hand
 some day you'll understand why life never kissed ya

Em7 C D and i said come on, come on my brothers and sisters
