

# Oasis - It's Better People

Tom: E

(com acordes na forma de Capostraste na 2ª casa D )

[intro] D A Em G  
 [verse] D A Em G  
 It's better people love one another  
 'Cause livin' your life can be tough  
 It's better people speak to each other  
 Your shame is not enough  
 If everybody came alive  
 And stayed alive  
 And lived their lives instead, yeah  
 So come outside  
 And feel the light  
 It's cold inside  
 But it's lonely in your bed  
 In your bed

[pre-chorus] E G A  
 And though we might be  
 But what you heard before  
 Was only sleepin' in your brain  
 But if you came with me  
 The days'd never end  
 Would never be the same

[chorus] E G A  
 They'd never be the same  
 They'd never be the same  
 Never be the same

[verse]  
 [pre-chorus]  
 [chorus]

It's Better People, written by Noel Gallagher, performed by Oasis

Here is Better People from the CD single "Roll With It" and the Amercian release "Morning Glory" single.  
 "Better People" by OASIS has got to be the 2nd best Song they perform besides WonderWall. Sure wish this would have been a single release. Anyway here it is, in the correct way it is supposed to be played.

Place Capo on second fret(listen real close and you can tell that the song has a capo), and play standard chord patterns of D, A, Em, G, E, but they will be transposed up one whole step.

/ or \ = Slide so that you get a good fret sound as you slide up or down.

m = muted note

[capo behind 2nd fret]
