

Oasis - Waiting For The Rapture

Tom: C

I still don't know what I was waiting for
 A big love to fall down from the sky
 She took my hand and picked me up off the floor
 She put an apple in my eye
 (Refrão)
 I said "I'm tired
 Come get me off the merry-go-round"
 I'm wired
 Come feed me
 And then bring me down
 She come up to me
 I can't remember what she said
 Cos I was in a trance and I forgot it all

Banging on about all the revolution in her head
 She make her lover seem so magical
 (refrão)
 She said "I'm tired
 Come get me off the merry-go-round"
 I'm wired
 Well heaven must have sent you
 To save me for the rapture
 (Solo) - Am C F (2x)
 I said "I'm tired
 Come get me off the merry-go-round"
 I'm wired
 Come feed me
 And then bring me down
