

October Project - Take Me As I Am

Tom: C

Intro: E E G G F G

A F C
Take me as I am

Someone you don't know
Even in the dark

You may not be sure
Take me while you can

I can see you standing in the
smoky entrance

Giving up your good
intentions

C Cm Bb
Leave the shadows dancing

Dancing on their own
Let the moment free you now

And leave it all behind you
I'll know where you've gone
passagem rápida

Bb D (D D G G D)
Let the world go on

A F C
Take me as I am

I may disappear

Fade into the night

Lighter than your thoughts
Take me while you can

Never knowing who or what you
are until you're

Living with the unfamiliar

C Cm Bb
Leave the shadows dancing

Dancing on their own
Bb F
Let the moment free you now

And leave it all behind you
I'll know where you've gone

Dm Dm G
There's a place where fear won't find you

Where your secret dreams remind you
This is all you have to know and

This is all you have to go on
Everything you have inside you

Everything you need to guide you
This is all you have to know and

G Bb D | D |
This is all you have to go on

Take me as I am

Someone you could know
Even as we speak

You could change your mind
Take me while you can

Even if you shine a light into the mirror
You won't see me any clearer
