

Off1cial_fireborn - Voices In My Head

tom:

Em

Em

I hear them talk

Voices walking into my thoughts

They won't stop, they stay with me

I just want them to be free

Some are loud, and some are low

Some bring things I used to know

I don't want to feel this way

Hope they fade with each new day

[Refrão]

Oh, I try to let them go

But they never leave me alone

Like the wind, they call my name

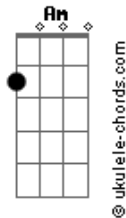

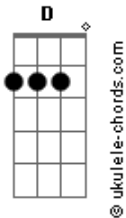

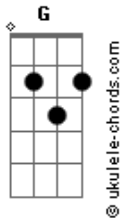

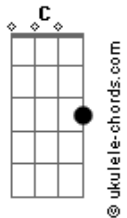

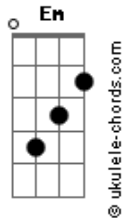

X2

Looking out at the falling rain

Trying to wash away the pain

Em

Acordes

I don't know what's wrong or right

But I'll keep on holding tight

Some are loud, and some are low

Some bring things I used to know

I don't want to feel this way

Hope they fade with each new day

[Refrão]

Oh, I try to let them go

But they never leave me alone

Like the wind, they call my name

I just want to feel okay

X2

(Refrão final)

Oh, I try to let them go

Now they're quiet, soft and slow

Like the wind, they drift away

Now I know I'll be okay
