                                                                                                                   get up

(E Gb / G C / D G / A ) (abafado) Deep inside your soul there's a hole you don't want to see
                                                                           Shows you're bleeding (get up get up)
Every single day what you say makes no sense to me Even though I try I can't get my head around you
                                                                            (E Gb / G C / D G / A) (abafado)
                                                                           Deep inside your soul there's a hole you don't want to see You're covering it up like a cut with the likes of me
(E Gb / G C / D G / A ) (distorcido)
Somewhere in the night there's a light in front of me
                                                                            You know I've really tried I can't do anymore do anymore
Heaven up above with a shove abandons me
And even though I try I fall in the river of you
                                                                           about you
You manage to bring me down too
                                                                            (E Gb / G C / D G / A )(distorcido)
                                                                            The cut's getting deeper
                                                                           The hill's getting steeper
All your faking (get up get up get up)
                                                                           I guess I'll never know what's going on inside you
                                                                           I can't get my head around you
Shows you're aching (get up get up)
                                                                            (solo)
(E Gb / G C / D G / A ) (distorcido)
Every single day what you say makes no sense to me
Letting you inside isn't right 'cause you'll mess with me
                                                                           (E \mbox{Gb} / \mbox{G} / \mbox{D} \mbox{G} / \mbox{D} (junto com o solo) I can't get my head around you
I never really know what's really going on inside you
                                                                           I can't get my head around you
                                                                           I can't get my head around you
