Tom: **C**

Key

-PM- = Palm Mute the notes above the symbol

Intro: (Do 4x) Play with

RIFF 1:

Bass riff **1A** (I don't play bass, so I took it out, since it doesn't fit with the redone riff 1B.)

Guitar riff **1B** - Neil originally had power chords, but I think it's octaves instead. Mute the string in between with your index finger to play them.

Play Bass riff 1a, then guitar 1b, then bass 1a, then guitar 1b, then verse

Verse: play 2x. You can either play the full 3-note power chord or just

the lower two notes - I can't tell exactly what Noodles is playing.

Haven't checked it from here on, take Neil's word for it! :)

Chorus: (Only easy part of song :) play x4)

Solo: (Play verse progression twice underneath)

Play the chorus, then go to Bridge 1:

Bridge 1:

The bridge is mostly the verse chords, except they all have different endings. It's a real pain.

Riff **A**

Riff **B**

Now play that whole section x2 again with other lyrics

Then go to final part of bridge
