Tom: **Db**  
Intro:

|

Verso 1:

Somewhere the time was right,  
Could have been gone in ten  
This world is hard to fight, hitting  
You once, hit it again  
To know the way it feels, everyone  
Gets knocked down  
When you get up it's real, by taking  
It back, turn it around

| |

|

Refrão:

Get on it, up on it  
Get on it - Wouldn't Wanna be you  
Get on it, out on it  
Get on it - No one's gonna free you  
You know, when you're keeping it slow  
No matter where you wanna go - Wouldn't wanna be you  
Get on it, up on it  
It's on - we're living in chaos

(You know, when you're [...] we're living in chaos)

## Acordes

Verso 2:

Somewhere along the line,  
Things get chipped away  
This place keeps going down,  
Gets a little worse every day  
I see hate and greed, this world's a  
Messed up town  
Embrace the pain and see, by taking  
It back, you turn it around
