There was a time, looking through myself  
Wanting to pretend

If I escaped, I could fill myself  
I don't think you can

Been far and wide  
But that hole inside

Never really leaves

When I went away, what I really left  
Left behind was me

It's telling me  
To be on my way home

ooo,ooo Million miles away  
ooo,ooo Million miles away  
I can't stay I can't stay  
ooo,ooo Million miles away

(Gb A E )

Each passing day, every passing face

Seems like such a blur

I long to be  
Home, silently  
Lying next to her

Just to get back, by her side is all  
All I need to be

Cause I went away

But what I really left  
Left behind was me

I need to be  
Getting on my way home

ooo,ooo Million miles away  
ooo,ooo Million miles away  
I can't stay I can't stay  
ooo,ooo Million miles away

Solo: (Gb A E )4x (B Db D Db E )

I need to be  
Getting on my way home

I can't stay I can't stay Million miles away  
I can't stay I can't stay Million miles away  
I can't stay I can't stay Million miles away  
I can't stay I can't stay Million miles away
