

The Offspring - The Noose

Tom: **G**

Intro:

Riff 1

Well our souls are all mistaken in the same misguided way
 We all end up forsaken, we're just choosing our own way
 The future now incinerates before our very eyes
 And leaves us with emptiness of no more tries
 Riff 2

Well our visions of glory have spiraled down the drain
 The best of our intentions come crashing down in flames
 The depths of our despair we are unable to contain
 It's shallow living

Refrão

The noose is falling
 And all my friends are crawling
 The noose is falling
 And enemies are rising
 A truth appalling
 Our mak'r comes a calling
 The noose is falling
 And enemies are rising
 Riff 3

Well the tracers from yesteryear are burning in the dust

Acordes

Your bruises are reminders of naivete and trust
 You're only feeling stronger cause your body's getting numb
 Now I lay you down
 Put the coins in your eyes
 And blow the candles out
 Refrão
 The noose is falling
 And all my friends are crawling
 The noose is falling
 And enemies are rising
 A truth appalling
 Our mak'r comes a calling
 The noose is falling
 And enemies are rising
