

Oh, Wassup Ju? - Kryptonite

Tom: D

Intro: Em Bm A G A
 (Todos os acordes são feitos com pestana nas casas 7ª/5ª e 3ª)
 I've never thought someone would make me feel like this
 I've never thought in my mind would be that kiss
 Babe I heard a lot about that thing they call heartbreak
 But I've never thought you would be my mistake
 And when I think I'm finally over you
 You catch me and bring me right back
 Oh, if you think I'm gonna call forget it
 Just if you take me by the neck

Oh babe can't you go out?
 Can't you let me move on?
 Can't I move on?
 How can I still be myself when you're always in my mind?
 And when I talk to them I pretend that I'm over you
 But I'm not, Oh I'm not
 I remember our goodbye that night and suddenly
 I realize, that you're my kryptonite
 You're my kryptonite
 Yeah, Yeah, Yeah?

(Em Bm A G A)

Oh, boy can't you see what's coming next?
 'Cause boy you and me you're nothing but my ex
 Remember how much we dreamed about
 Traveling the world and making the car our house
 Oh, you? said too much lies
 What else do you hide?
 And if you come a little closer
 My heart beats faster I can't deny

And when your lips touch mine
 I swear to God that's just one more night
 Oh babe can't you go out?
 Can't you let me move on?
 Can't I move on?
 How can I still be myself when you're always in my mind?
 And when I talk to them I pretend that I'm over you
 When I'm not, Oh I'm not
 I remember our goodbye that night and suddenly
 I realize, that you're my kryptonite
 You're my kryptonite

Oh, I'm lost in the dark of the night
 And I'm looking for my kryptonite
 I don't know why, why I keep
 Looking for what makes me so weak
 But I can't think
 But I can't breathe
 I think it's time to let it go

Oh babe can't you go out?
 Can't you let me move on?
 Can't I move on?
 How can I still be myself when you're always in my mind?
 And when I talk to them I pretend that I'm over you
 But I'm not, Oh I'm not
 I remember our goodbye that night and suddenly
 I realize, that you're my kryptonite
 You're my kryptonite
 Yeah, Yeah, Yeah?
