

# Ok John - Take It

tom:

Intro: Gb A B Db  
Gb A B Db

Can't see through her future  
But I see through her eyes

They tell me her secrets  
And all her desires

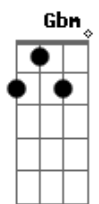

Stay on the hallway  
You are blocking my view

She could be staring  
And I missed the thrill  
Don't waste time just get her started  
She'll not wait till you get high

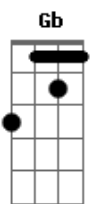

Do you have a partner  
Or are just a tease

Cause I have intentions  
And I brought them with me

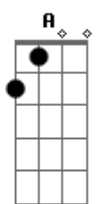

## Acordes

I could be asking  
About your routine

If you go to college but I won't make a scene  
(Cause I just wanna)

Have your body and leave this party

Makes no difference where your heart is

Take it  
Take it  
Take it

And as your show was done  
I ran and lied

But it was not too long  
Until you found me

And I was wrong

You should come come again

( Gb A B Db )
