

Olivia Newton-John - Deeper than the night

Tom: E

I can't imagine why you say the things you do
 Maybe in time I'll understand
 What is the reason for the emptiness you feel
 When I'm trying everything I can
 My love is running deeper than the night
 Stronger than the north wind blowing
 It's a fire burning bright
 And it's always been this way

Can you hear me?
 I really coming thru?
 Why do your eyes seem to dance away?
 I know what's right for you Haven't I always?

I need you more than I can say

My love is running deeper than the night
 Stronger than the north wind blowing
 It's a fire burning bright
 And it's always been this way

My love is running deeper than the night
 Stronger than the north wind blowing
 It's a fire burning bright
 And it's always been this way

And I'll never ever change
 In my lifetime, I'll stay the same
 Yes I'll never, I'll never change
 I'll love you, I'll stay the same

My love is running deeper than the night
 Stronger than the north wind blowing
 Fire burning bright, and it keeps on growing, keeps on growing
 (repeat)
