

Olivia O'Brien - We Lied To Each Other

tom:

Intro: G7 Gb G Bm7 E7

[Primeira Parte]

You say you built up walls
 Baby, I built myself up a whole goddamn house
 It's a hundred feet tall
 Don't even try to break in, it's made to keep you out

[Pré-Refrão]

Every time I let somebody in
 They let me down, I can't come out again
 And I build up the walls a little higher
 So I'm sorry if I don't believe your shit
 I just think I might be runnin' out of bricks
 'Cause it turns out that everyone's a liar

[Refrão]

Like I lied when I said I don't care
 And you lied when you told me you did
 We lied to each other and it isn't fair
 We lied to each other
 And I'd do it again

[Segunda Parte]

I know if I saw you right now
 I would run away fast
 Or say, "I just wanna be friends"
 So you don't figure out that my walls are just glass

[Pré-Refrão]

The problem is that there's a difference

You're a criminal and I am innocent
 You're beautiful but the truth is ugly
 I never had your bad intentions
 I just kinda sorta didn't mention
 That I want you 'cause I know you'll never love me

[Refrão]

So I lied when I said I don't care
 And you lied when you told me you did
 We lied to each other and it isn't fair
 We lied to each other
 (A Em G Bm)
 (A Em G Bm A)

[Ponte]

The only explanation
 For this sad situation
 Is that I love to be in pain
 I don't think I'm worthy
 Don't think I'm deserving
 Of love, that's why I play these games

[Refrão]

So I lied when I said I don't care
 And you lied when you told me you did
 We lied to each other and it isn't fair
 We lied to each other

We lied to each other
 We lied to each other
 We lied to each other
 We lied to each other
 And I'd do it again
