

Oliver The Kid - The Woods

Tom: G

Waking up in the middle of the woods
 Naked in the middle of the woods

I've seen all the wolves in this place
 I've been a wolf in this place
 I've been watching the rats in the race
 I was a rat in the race

I've seen the love in me fade

I am no longer here: the place I fear, the place that fills me
 You are: the words I feel, the knot that heals, the place I kneel to

Tell me that you want to leave with me
 Tell me that you want to go with me
 Don't you want to get out of here?
 Out of the woods?

Tell me that you want to leave with me
 Tell me that you want to go with me
 Don't you want to get out of here?
 Out of the woods?

We walk down to the ocean
 Your sarcasm heavy laden on me
 Your eye contact leaves a message

My love stacked on top of the trees
 You brought me down to the river
 And you pushed me in
 Hoping that the white rapids
 Would challenge my ability to swim
 You are the words I feel
 You're how I deal
 You're who I run to

Tell me that you want to leave with me
 Tell me that you want to go with me
 Don't you want to get out of here?
 Out of the woods?
 Tell me that you want to leave with me
 Tell me that you want to go with me
 Don't you want to get out of here?
 Out of the woods?

I walk you down to the willow to show you the leaves
 I say 'they are just like us
 Ever changing into the breeze'
 You pick up two handfuls
 You tell me 'they're all dried up and dead'
 You know that's nothing like us
 We'll live forever instead
