

# One Ok Rock - Listen (feat. Avril Lavigne)

Tom: Db

(com acordes na forma de C )

Capostrate na 1ª casa

You always call me full of regret

You want me to save you again

( Am F C G )

All these years the days go by

I've seen you fall a million times

Everybody makes mistakes

It feels so hard to watch you hurt

From the pain a lesson learned

This is how you find your way

( Am F C G )

It feels so hard

I've been there too

Sky so dark no way through

Stories only scars can tell

I've got so much love for you my friend

Ride or die until the end

But only you can save yourself

You just have to

Listen listen

I hope that you know

Listen listen

I won't let you go

I wish you I could save you from the

pain you've been through

And all I can tell you is the

best thing to do

You've gotta listen listen

Listen listen

Listen listen

To your heart

Listen listen

Listen listen

Listen listen

Listen listen

I won't let you go

The pain you've been through

And all I can tell you is the

best thing to do

You gotta

Listen listen

Listen listen

Listen listen

Listen listen

To your heart

To your heart

Listen listen

To your heart
