                                                               Waiting to catch the quickest plane
                                                                             Fhm
                                                                Flying to nowhere
 How did you find me?
                                                                Is better than somewhere
Where did you read my story?
                                                               That's where I've been and nothing's changed
 Pulled from the papers
 Desperate and hardened
                                                                 All I wanted to say
  seeking a momentary fix
                                                                 All I wanted to do
                                                                 Is fall apart now
 All I wanted to say
                                                                 All I wanted to feel
 All I wanted to do

                                                                 I wanted to love
 Is fall apart now
                                                                 It's all my fault now
 All I wanted to feel
                                                                 A Tragedy for sure
 I wanted to love
 It's all my fault now

 A Tragedy I fear
                                                               How did you find me?
                                                               How did you pick me up again?

                                                               Why am I on my feet again?

                                                               And I see you
