

# Orthodox Celts - Lone Wolf

tom:

Intro: C F C C

The lamp shines on the yellow track  
 Through the window through the dark  
 All the ghosts haven't gone yet  
 Leavin' truth so pain and stark

Where the view's so blind and broke  
 And I knew that all my memories  
 There were burnt in a cloud of smoke

I don't need night to remind me  
 Of the warmth I lost with you  
 Or the yells of bloody ravens  
 That flew out of my wounded soul

[Refrão]

Howlin' lone wolf in me  
 Howlin' lone wolf in me

Howlin' lone wolf in me  
 Howlin' lone wolf in me

Tomorrow rain will fall again  
 As every other boring day  
 The shadow of my love will crawl  
 Through another hundred shades of gray

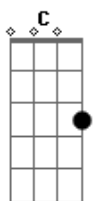

I follow pulse of an empty street  
 Through my blazing nightmares like insane  
 And the wolf in me keeps howlin'  
 'Til I find you again

[Refrão]

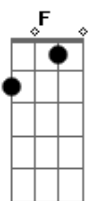

Howlin' lone wolf in me  
 Howlin' lone wolf in me  
 Howlin' lone wolf in me  
 Howlin' lone wolf in me

Tomorrow rain will fall again  
 As every other boring day
