

Orthodox Celts - Save Me

Tom: C

(com acordes na forma de G)

Capostrate na 5ª casa

Intro: C D G G

Shapes disappear
 Erased by the darkened welcome of the night
 Behind the clouds
 The moon set sail across the flaming stars
 The night is so quiet
 I still wait your steps to hear and melt the snow
 Rage of the Wind
 Feeds my hunger while I'm dreamin' alone
 Save me girl
 Give me shelter in your arms
 Save me girl
 And blow away my harms
 Save me girl

Arise me from the dead tonight
 I'm burning down
 I saw your smile and lost myself in you
 But I don't mind
 Whole starry skies I found in your eyes
 I can't control
 ...myself. I don't belong to me no more
 Since you allowed
 To see my reflection in the mirror I love
 Save me girl
 Give me shelter in your arms
 Save me girl
 And blow away my harms
 Save me girl
 Arise me from the dead tonight
