

# Orthodox Celts - Save Me

Tom: C

(com acordes na forma de G )

Capostrate na 5ª casa

Intro: C D G G

Shapes disappear  
 Erased by the darkened welcome of the night  
 Behind the clouds  
 The moon set sail across the flaming stars  
 The night is so quiet  
 I still wait your steps to hear and melt the snow  
 Rage of the Wind  
 Feeds my hunger while I'm dreamin' alone  
 Save me girl  
 Give me shelter in your arms  
 Save me girl  
 And blow away my harms  
 Save me girl

Arise me from the dead tonight  
 I'm burning down  
 I saw your smile and lost myself in you  
 But I don't mind  
 Whole starry skies I found in your eyes  
 I can't control  
 ...myself. I don't belong to me no more  
 Since you allowed  
 To see my reflection in the mirror I love  
 Save me girl  
 Give me shelter in your arms  
 Save me girl  
 And blow away my harms  
 Save me girl  
 Arise me from the dead tonight
