

Oscar Isaac - Never Had

```
Tom: Gb
                                                            Well passed midnight
                                           C)
(com acordes na forma de
Capostraste na 6º casa
                                                            When Im bluer than a bruise
Intro: F Am G C G
(F C G)(2x)
                                                                         Am G
                                                             You come drifting in through the half light
                                                                       C
                                                             In your funny yellow shoes
        Am
I've been gone for so long now
                                                             And I hope thats you standing at my doorway
Chasing everything thats new
                                                            Thats the scratching of your key

F

Am

G
      Am G
I've forgotten how I got here
                                                             And I hope this song Im singing, someday finds you
           C
I have not forgotten you
          Am G
                                                             My letter to Elise
We were just children but our eyes opened and
You were all that i could see
                                                             Through the good times and the bad
F Am G C
You came close enough to know my heart beat but
                                                             You were the best I never had
        C
Still not close enough for me
                                                            The only chance I wish I had to take
                                                             But there was no writing on the wall
Through the good times and the bad \frac{G}{G}
                                                                   G
                                                                              Am
                                                            No warning signs to follow
You were the best I never had
                                                             I know now and I just can't forget, Youre the best I never had
The only chance I wish I had to take
                                                             F C G
                                                            Nana nanana
But there was no writing on the wall
                                                            Best I never had
        G
No warning signs to follow
                                                                 C
                                                            Nana Nanana mmm
I know now and I just can't forget, Youre the best I never had
                                                            Am G
                                                             Best I never had
(Repeat Intro x 1)
Nanana Mmmm
                                                            Nana Nanana
                                                            ends at G
In this motel
