

# Our Last Night - Common Ground

Tom: G

Verso:

I know we both want to do the right thing  
 But the needle in our compass is trembling  
 Trapped in the flames as our house burns down  
 Left for dead cause we can't find common ground  
 ( Em G C ) (2x)

Refrão:

We can't find common ground so we agree to burn it down  
 ( C Em ) (2x)  
 ( C Em G )

We can't let it burn down so we need to find common ground

Verso:

It's so hard to find the truth  
 When the other side wants to bury you, to bury you  
 And it's so hard to find the way  
 When the other side wants to play you like a game

It's all about who's wrong and who's right  
 Don't wanna learn, we just wanna fight  
 If different thinkers are enemies just think of what we could be  
 If our thoughts were in harmony

Ponte:

I know we both want to do the right thing  
 But the needle in our compass is trembling  
 Trapped in the flames as our house burns down  
 Left for dead cause we can't find common ground  
 ( Em G C ) (2x)

Refrão:

We can't find common ground so we agree to burn it down

( C Em ) (2x)  
 ( C Em G )

We can't let it burn down so we need to find common ground

Ponte:

We're stuck in a maze of conviction  
 Every path leads back to the beginning  
 We built these walls  
 Verso:

It's all about who's wrong and who's right  
 Don't wanna learn, we just wanna fight  
 We've been blurring the lines between dreams and reality  
 Only the truth could set us free

I know we both want to do the right thing  
 But the needle in our compass is trembling  
 Trapped in the flames as our house burns down  
 Left for dead cause we can't find common ground

(Your heart's in the same place  
 But your mind is a million miles away)

Your heart's in the same place  
 But your mind is a million miles away  
 And it's forcing us to separate  
 Your heart's in the same place  
 But your mind is a million miles away  
 And it's forcing us to separate

Final:

(Now fading)  
 (Your heart's in the same place  
 But your mind is a million miles away)  
 (Your heart's in the same place  
 But your mind is a million miles away)
