

Owl City - Honey And The Bee

Tom: C
Intro: C F

Verso 1:
Don't remind me that someday I'm a windshield
And other days I'm just a lucky bug

As cold iron rails
Leave old mossy trails through the countryside

Verso 2:
The crow and the bean field
Are my best friends but boy I need a hug (boy I need a hug)
Cause my heart stops without you
There's somethin' about you that makes me feel alive

Refrão:
If the green left the grass on the other side
I would make like a tree and leave
But if I reached for your hand would your eyes get wide
Who knew the other side could be so green

Verso 3:
Don't remind me, I'm a chickadee in love with the sky
But that's clearly not a lot to crow about
Cause when the stars silhouette me
I'm scared they'll forget me, and flicker out

Verso 4:
I taste honey but I haven't seen the hive

Yeah I didn't look, I didn't even try

But still my heart stops without you
Cause of something about you that makes me feel alive

(Refrão)

Ponte:
(Ooooooh) We are the honey and the bee (Ooooooh)
Backyard of butterflies, surrounded me
And I fell in love with you, like bees to honey
So let's up and leave the weeping to the willow tree
And pour our tears in the sea
I swear, there's a lot of vegetables out there, that crop up for air

And yet I never thought, we were two peas in a pod
'Till you suddenly bloomed and I knew
That I'd always love you
Oh I'll always love you too

(Refrão)

Refrão:
If the green left the grass on the other side
I would make like a tree and leave
But if I reached for your hand would your eyes get wide
Who knew the other side could be so green
And if I reached for your hand for the rest of my life
Who knew the other side could be so green
