

P.G. Headway - I Just Have Started To Live

tom:

Intro: D Gbm G

D Gbm G
If your dreams are bigger than your income
And you don't work on something that makes you feel awesome
Your butt is square and you don't care about the symptoms
This is the sign you need to find that thing you've lost, bro
I bought ten thousand dollars with my credit card
So I could have some cash to buy time, that was hard
But I believe bankruptcy always lose to the heart
I can see clearly now there's no reason to be in this war

[Refrão]

But then his father said he should become a banker
Now John is working blue behind a bulletproof glass
Forcing a smile 'cause that's the only role he has left
Well I, I took my last salary and bought the best guitar
Now, blue John calls me all the time, he wants to take my car
But man, I'm just trying to be happy as you, as you are
I'll pay the next round, after all we're part of the same star
