

Padre Zezinho - Yes I Believe In God

tom:

E

E

Gbm

Yes I believe in God

Yes I believe in his love

Yes I believe in God

Yes I believe in his love

The stories I came here to tell

They speak of God, and truth, and love

They show man in search of life

And life itself in search of man

God is always with his people

Yet we hardly understand

Yes I believe in God

Yes I believe in his love

So many times I stop and wonder

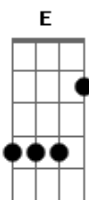

Why we live the way we do

For we say God came to earth

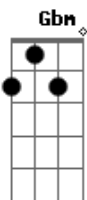

And yet we hardly think of Him

Everybody talks of hope

And never sets his hope in Him

Yes I believe in God

Yes I believe in his love

Oh yes, I sure believe we could

With just a little more to show

Change the world and our times

If we just let religion grow

But we shy from every effort

All we say is ?I don't know?

Yes I believe in God

Yes I believe in his love

I know this life could be so great

If we tried to imitate

Joseph Mary and their Jesus

In that house in Nazareth

But some people make a house

And find no time to build a home

Yes I believe in God

Yes I believe in his love
