

Pagan John - She Is My Hero

Tom: C

She is my hero
 Hold her close
 When she came thru my door
 To warm me up in the cold
 It was our first time
 I could see the stars in her eyes
 I'd love to go back
 At the moment I kissed her she smiled

She is my hero
 She is my lovely wonder girl
 And we are free falling now
 Far from the ground
 Falling through all those lights
 She is my best friend
 She loves me the way I am
 She is my hero
 Lying down on my bed

Drinkin' some good wine
 Talking about the future of life
 We could just freeze at this moment
 Is so hard to say goodbye
 And when we make love
 The sparks light up the sky
 No words could tell what we feel
 When we're going that high

She is my hero
 She is my lovely wonder girl
 And we are free falling now
 Far from the ground
 Falling through all those lights
 She is my best friend
 She loves me the way I am
 She is my hero
 Lying down on my bed
