

Panic! At The Disco - Only Difference Between Martydom And Suicide Is Press Coverage

I've listened to the song a few times and also read some other bass tabs for this song and this is how I feel it is played if you don't like it then fine.

the first 10 seconds is just guitars, singer, and drums

Play that twice and then. At 1:39 its just a hard Gb with feed back and all the other little stuff in the back round. (You can add a few slaps in there or just hold the note out any thing to make noise)

A-----|
E-2-----|

then at 1:45 you have to listen hard but you can hear the bass start up and it flows into the techno part of the song. (if you have trouble just listen to the synth part it follows that. This little bit of the song is hard to make out so sorry for anything thats wrong.)

1:45
G-----|
D-----|

E-2-2-2-2-----0-|

Play that till 1:50 then. You play the bass line with the fake snare. (listen and you'll hear it)

From here on play this section.
