Intro: Em  D  C

[Primeira Parte]

Em            D           C
   Sometimes I justify the words I spill
Em            D           C
   Like spitting ambers they spoke and kill
Am          Bm          C
   Outside my troubles are colder
     Am           Bm        C
But in these eyes the melody smolders
Em            D           C
   I know the whispers they hurt sometimes
Em            D           C
   They swell and fracture my vital light
       Am           Bm        C
But can't you see the sanity in my epiphany
Am              Bm        C
Let me cure these blackened hearts

[Refrão]

                 Em  C    G

I can make another world for us
