

Paolo Nutini - Iron Sky

```
Intro: Dbm E A7M Gbm
      Dbm E A7M Gbm
      Dbm E
We are proud individuals
A7M
                Gbm
 Living for the city
        Dbm
But the flames
       Е
Couldn't go much higher
Dbm E
We find God and religions too
 To bait us with salvation
   Dbm E
But no one, no nobody
   A7M
Can give you the power
   Dbm
To rise
Over love
  A7M
Over hate
```

Acordes

Through this iron sky that's fast becoming our mind

```
A7M
                            Gbm Gbm
Over fear and into freedom
           Dhm
Oh, that's life
That's dripping down the walls
                       A7M
Of a dream that cannot breathe
              Gbm
In this harsh reality
        Dbm
Mass confusion spoon fed to the blind
               A7M
Serves now to define our cold society
From which we'll rise
  Е
Over love
  A7M
Over hate
            Gbm
Through this iron sky that's fast becoming our mind
Over fear and into freedom
 You've just got to hold on
                      A7M E A7M E
You've just got to hold on
```
