

Parade Of Lights - Feeling Electric

Tom: C

F C G
 I remember when I saw you
 You know I couldn't look away
 You're the spark that starts a fire
 Tell me, do you feel the same

F C G
 So give me one more shot tonight
 I will tell you if my heart stops beating right
 Let me show you that the only thing I know
 No matter where we go
 I feel just like we did when we connected
 Feeling electric, feeling electric

F C G
 You can tell me all your secrets
 I will never tell a soul

I'll make a promise and I'll keep it
 I will never let you go

F C G
 So give me one more shot tonight
 I will tell you if my heart stops beating right
 Let me show you that the only thing I know
 No matter where we go
 I feel just like we did when we connected
 Feeling electric, feeling electric

F C G
 So give me one more shot tonight
 I will tell you if my heart stops beating right
 Let me show you that the only thing I know
 No matter where we go
 I feel just like we did when we connected
 Feeling electric, feeling electric
