

# Parade Of Lights - Feeling Electric

Tom: C

F C G  
 I remember when I saw you  
 You know I couldn't look away  
 You're the spark that starts a fire  
 Tell me, do you feel the same

F C G  
 So give me one more shot tonight  
 I will tell you if my heart stops beating right  
 Let me show you that the only thing I know  
 No matter where we go  
 I feel just like we did when we connected  
 Feeling electric, feeling electric

F C G  
 You can tell me all your secrets  
 I will never tell a soul

I'll make a promise and I'll keep it  
 I will never let you go

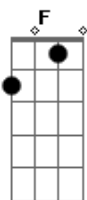

F C G  
 So give me one more shot tonight  
 I will tell you if my heart stops beating right  
 Let me show you that the only thing I know  
 No matter where we go  
 I feel just like we did when we connected  
 Feeling electric, feeling electric

F C G  
 So give me one more shot tonight  
 I will tell you if my heart stops beating right  
 Let me show you that the only thing I know  
 No matter where we go  
 I feel just like we did when we connected  
 Feeling electric, feeling electric
