Gbm                      A                            D
  What a shame we all became such fragile, broken things
            Bm
A memory remains just a tiny spark
Gbm                       A                          D
  I give it all my oxygen, to let the flames begin
                     Bm
So let the flames begin

          D2  D2
Oh, glory
E
  Oh, glory

Gbm            A
This is how we dance when,
          D
When they try to take us down.
Bm                           Gbm
This is what we'll be, oh glory

Gbm                          A
D
  Somewhere weakness is our strength, and I'll die searching
for it
                     Bm
I can't let myself regret, such selfishness
Gbm                          A
  My pain and all the trouble caused
             D                              Bm
No matter how long I believe that there's hope

                         D2  D2
Buried beneath it all and
E                         D2  D2
  Hiding beneath it all, and
E
  Growing beneath it all, and

Gbm            A
This is how we dance when
          D
When they try to take us down
Bm
This is how we'll sing, oh
Gbm                A
This is how we'll stand when
          D
When they burn our houses down
Bm                              Gbm
This is what we'll be, oh glory

( Gbm  A  D  Bm )

Gbm            A              D     Bm
Reaching as I sink down into light
Gbm            A              D     Bm
Reaching as I sink down into light

Gbm            A
This is how we dance when
          D
When they try to take us down
Bm
This is how we'll sing, oh
Gbm                A
This is how we'll stand when
          D
When they burn our houses down
Bm                              Gbm
This is what will be, oh glory
