Intro: D Gbm Bm D A

[Primeira Parte]

Your scent's long gone
But your voice lingers in my heart, it echoes
Once, you run home
Will you bruise me like you did?
Will you wait or let go?

[Refrão]

You told me once
Our broken pieces fit so well
But now I'm whole
So swear to God, you'll love me still

[Segunda Parte]

Holdin' on, to that last kiss we shared
Never felt so scared
Hold on to me
Hold on for me, why don't see
We bleed and repeat?

[Refrão]

You told me once
Our broken pieces fit so well
But now I'm whole
So swear to God, you'll love me still

[Ponte]

If I could be the one that you wanted
If I could be enough, for you
If I could be the one that you wanted
If I could be enough, for you

[Terceira Parte]

You told me once
We'd never have to say farewell
Are we a fire?
Or are we drownin' in the well?

I wanna live
I wanna hold my head up high
I want the truth
I want a goddamn lullaby
