

# Passafire - Epiphany

Tom: G

<sup>G</sup>  
In a way, i feel like a cloud passing over a mountain

I'm about to leave all my worries behind <sup>G</sup>

On top of this mountain mountain <sup>C</sup>

And i lay my head into the snow <sup>D Em C</sup>

Watching the mountain stream flow <sup>D Em C</sup>

<sup>G</sup>  
Cuts through the rock like a diamond  
Gravity pulls down the work of a cloud

Unwinding days of preparation <sup>C</sup>

Raise a generation to understand <sup>G</sup>

Faith that lies ahead

For a cloud with a peak in it's path <sup>C</sup>

You can never look back

Once it's all gone

<sup>G</sup>  
And say so long

To all that's lost <sup>C</sup>

What's lost

<sup>D Em C</sup>  
I lay my mind on the line

<sup>D Em C</sup>  
Like the worker in the dead of night

<sup>G</sup>  
Push my conscience to the edge of the table

If i'm able to suggest <sup>Em</sup>

Let me hold the cable and <sup>G</sup>

Work my way back down <sup>C</sup>

<sup>Em G C</sup>  
From this place i can see the town below

Wonder if <sup>Em</sup>

Anybody knows that it's about to snow <sup>G C</sup>

The whole night through <sup>G</sup>

In a way, i feel like a cloud passing over a mountain <sup>C</sup>

I'm about to leave all my worries behind <sup>G</sup>

On top of this mountain mountain <sup>C</sup>

## Acordes
