Passenger - Hell Or High Water

```
                        tom:
                     Em

               [Refrão]
                                    Em
Was it the trick of the light?
                          G
Or a shot in the dark?
                  D                        C
Was it hell or high water that broke our hearts?
                                Em
Was it something I said?
                          G
Or just a cruel twist of fate?
                  D                  C
Was it hell or high water and is it too late?
         C
Oh, is it too late?

( Em  G  D  C )

[Primeira Parte]

Em
Man, all my life I've been
G                    D                      C
Searching for someone, to show me how it feels to be loved
C
And how to love somebody back

[Pre-Refrão]

Em                            G
And after stumbling through the years
                          D                    C
I thought I found you, just to see you fading out into the
night

[Refrão]
                                    Em
Was it the trick of the light?
                          G
Or a shot in the dark?
                  D                        C
Was it hell or high water that broke our hearts?
                                Em
Was it something you said?
                          G
Or just a cruel twist of fate?
                  D                  C
Was it hell or high water and is it too late?
         C
Oh, is it too late?

[Segunda Parte]

Em
See, all my life I've been
G
Silently reaching for
   D                        C
A hand to hold, to warm the cold. Spark a light,
```
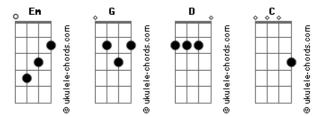

```
                 C
To guide me through, alright?

[Pre-Refrão]

Em                            G
And after stumbling through the years
                          D                              C
I thought I found you, just to see you fading out into the
night

[Refrão]

                                    Em
Was it the trick of the light?
                          G
Or a shot in the dark?
                  D                        C
Was it hell or high water that broke our hearts?
                                Em
Was it something we did?
                          G
Or just a cruel twist of fate?
                  D                  C
Was it hell or high water and is it too late?

[Interlúdio]

Em  G
   Hey, hey
D  C
   Hey, hey
Em  G
   Hey, hey
D  C
   Hey, hey

[Ponte]
                                Em
Was it a knife in my back?
                          G
Or a fork in the road?
                  D                        C
Was it hell or high water that left us alone?
                                Em
Is it really game over?
                          G
Is it really checkmate?
                  D                  C
Was it hell or high water and is it too late?
         C
Oh, is it too late?

( Em  G  D  C )
( Em  G  D  C )

[Final]
                                    Em
Was it the trick of the light?
                          G
Or a shot in the dark?
                  D                        C
Was it hell or high water that broke our hearts?
```
