

Pat Green - Temporary Angel

Tom: G

(com acordes na forma de D)
 Capotraste na 5ª casa
 Capo 5

Well I believe in hope and marriage, forever and I do
 But love suffers pain when you try to hard
 And tonight we're living proof
 If we fell in love already, we can fall in love again
 There is no doubt we can work it out
 Find a way to fall back in
 Do you remember when I met you, what I whispered in your ear

Be my temporary angel, I'll be your love for just one day
 Hold me for the moment, let the moment fade away
 When you wake up in the morning your heart tells you to stay
 Be my temporary angel forever, when forever comes our way

 We can start this thing all over
 Let tomorrow wait it's turn
 Forget about the past it will never last
 Strike a match and watch it burn
 Do you remember when I met you
 What I whispered in your ear

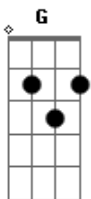

Chorus

Close the door, and turn the lights down
 Let it all come, come down to right now

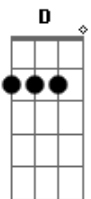

Chorus 2x

On the last lines of the verses and chorus I changed Em to Em7 because it makes it easier to walk-up to G.
