

Pato Fu - You Have To Outgrow Rock'n Roll

tom:

Intro: E A E A
E Fm D E A

Get what you can and run away

Time's running out, you won't escape

You don't wanna be that kind of fool

The guy who will never act his age

It's not that you have a choice to make

You can't afford another day

Those little things you left undone

Painted your hair with shades of grey

Why don't you settle down

Go raise a family

Then maybe you'll find out

What's left of life to live

Why don't you find a girl

Go for a pair of kids

You want a new guitar

You'd better rest your fists

So it's time when it's time

Then it's time to get old

Gotta choose it, do it right

Or be out of control

You're part of the landscape now

You have to outgrow rock'n roll

You have to outgrow rock'n roll

[Solo] A E Fm D E

I guess now you get what this is all about

You should be ashamed without a doubt

Go buy yourself some real shoes

No more loud amps, no screams, no shouts

Why don't you settle down

Acordes
