I don?t know where to go
  Bbm F
I don?t need heroes anymore
When it became fatal for me to win this battle, my friend
        Bbm F
                       Bbm
When did I have a choice?
Every cause has an effect
Even if you don?t feel regret
You try to escape from the cave hidden inside you
To climb and break these walls, reset
You are what you?ve done when the last door closes behind you Life is not a lie and I know
        Bbm
Even though you try to forget, yeah
Every cause has an effect
Even if you don?t feel regret
Everytime I feel you I know
Life is not a lie and I know
```
