

Patrick Stump - Summer Days (feat. Macklemore & Martin Garrix)

```
Tom: G
           [Refrão]
 I got this feeling on a summer day
Knew it when I saw her face
I just thought that she could be the one
[Primeira Parte]
 She looks good in the morning
 And she don't even know it
 I don't want you to go yet
 Can we stay in the moment?
[Pré-Refrão]
Don't look in the mirror, look into my eyes
When you see your reflection, you'll see what I like
 You look good in the morning
                                                              [Pré-Refrão]
 And you don't even know it, I knew that
[Refrão]
 I got this feeling on a summer day
Knew it when I saw her face
I just thought that she could be the one
                                                              [Refrão]
 I got this feeling on a summer day
Knew it when I saw her face
I just thought that she could be the one
[Segunda Parte]
 Sundress with you on my arm
 Take the coupe out the garage
Pull the roof back just me, you and the stars
 Toast to the Gods
 ( Dm )
                                                              She could be the one
```

 Uh, me and you on an island
 With the ocean color stuck in your iris
 We're comfortable in silence
 But I prefer when we wilding
Sundress, nothing underneath as we undress
You could look in my eyes see I'm some mess
Couple of broken people
Trying to complete each other under one breath
Don't look in the mirror, look into my eyes
When you see your reflection, you'll see what I like
 You look good in the morning
 And you don't even know it, I knew that
 I got this feeling on a summer day
