

# Paul McCartney - Ever Present Past

Tom: C

I've got too much on my plate  
 Don't have no time to be a decent lover  
 I hope it isn't too late  
 Searching for the time that has gone so fast  
 The time that I thought would last  
 My Ever Present Past

Verse Two: A mesma coisa do primeiro verso!

I've got too much on my mind  
 I think of everything to be discovered  
 I hope there's something to find  
 Searching for the time that has gone so fast  
 The time that I thought would last  
 My Ever Present Past

Chorus:

The things I think I did

I do, I think I did  
 The things I think I did

When I was a kid,  
 Middle:

I couldn't understand a word that they were saying  
 But still I hung around and took it all in  
 I wouldn't join in with the games that they were playing

It went by, it went by, in a flash  
 It flew by, it flew by, in a flash

Short guitar solo

Verse Three: Mesma coisa do primeiro

There's far too much on my plate  
 Don't have no time to be a decent lover  
 I hope it's never too late  
 Searching for the time that has gone so fast  
 The time that I thought would last  
 My Ever Present Past
