I can't help it if I'm starting to smile
I've got a full gas tank
And it's only a mile
'Till I'll be with my little woman
I'm ready to see her

So I say, Bye bye melancholy listen to me
We had a long long ride
But it isn't to be
I've found a real fine woman
I'm heading to see her now

Get out of my way

I don't need anybody to tell me
How to be right
Don't try to stop me
I've got the answer
I won't need anybody except my woman tonight
