

Paul McCartney - (I Want To) Come Home

Tom: C

(intro) G G Em C C7M G

(verso)

C C Am G
For so long I was out in the cold
C C Am Bm
and I taught myself to believe every story I told
Em Em C
It was fun hangin' onto the moon, heading into the sun
C G
but it's been too long and now I want to come home

Came so close, to the edge of defeat
But I made my way in the shade, keeping out of the heat
It was fun shooting out at the stars, looking into the sun
But it's been too long,
Now i want to come home

(refrão)

Em Gbm B7 Em
Home, where there's nothing but sweet surrender
Am Em F G
To the memories from afar

C Gbm B7 Em
Home, to the place where the truth lies waiting
Am Em F G
we remember who we are

(verso)

For too long, I was out on my own
Every day I spent trying to prove I could make it alone
It was fun hanging onto the moon, heading into the sun
But it's been too long,
Now I want to come home

(refrão)

(verso)

For so long, I was out in the cold
But I taught myself to believe every story I've told
It was fun hanging onto the moon, heading into the sun
But its been too long,
Now I want to come home

C C G
Yeh it's been too long and now i want to come home
C C C7 G
Been too long and now i want to come home
