## Paul McCartney - Shes Given Up Talking

```
{\sf Em}
She's given up talking, don't say a word
Even in the classroom not a dickey bird
Unlike other children, she's seen and never heard
          Em
                        Em
She's given up talking won't say a word
Fm
You see her in the playground, mootin on her own
Everybody wonders why shes all alone
Someones got her angry, someones got her scared
She's given up talking wont say a word
But when she comes home its a yap, yap, yap
Words are running freely like a water from a tap
Her brothers and her sisters can't get a word in edgeways
But when shes back in school again she goes into a daze
```
