

# Paul McCartney - Step Inside Love

Tom: G Step inside love. I want to you

This demo was filmed at Chappel Studios, London on November 21st 1967 for Cilla Black's BBC TV series and later used in the promo for the song. It featured the finished version of the song. It is just Cilla Black singing and Paul McCartney on acoustic guitar. The studio version released as a single was recorded in another key (G ), at a fifth higher register than this earlier arrangement, which is in the key of D and is obviously a little low for the best use of Cilla's voice.

Step inside love, let me find you a place  
Where the cares of the day will be carried away  
By the smile on your face.  
We are together now and forever, come my way.  
Step inside love and stay.  
Step inside love, step inside love, step inside love,  
I want you to stay.

You look tired love, let me turn down the light  
Come in out of the cold, rest your head on my shoulder  
And love me tonight.  
I'll always be here if you should need me,  
Night and day.  
Step inside love and stay.  
step inside love,  
Step inside love,  
I want you to stay.

When you leave me, say you'll see me again,  
For I know in my heart we will not be apart  
And I'll miss you till then.  
We'll be together now and forever, come my way.  
Step inside love and stay.

Step inside love (I want you to).  
Step inside love (I know I do).  
Step inside love,  
I want you to stay.
