

Paul McCartney - The Kiss Of Venus

tom:

E

[Primeira Parte]

The kiss of Venus has got me on the go
 She's scored a bullseye in the early morning glow
 Early morning glow

[Pré-Refrão]

Packed with illusions, our world is turned around
 This golden circle has a most harmonic sound
 Harmonic sound

[Refrão]

And in the sunshine where we stand alone
 We came together with our secrets blown
 Our secrets blown

[Riff 1]

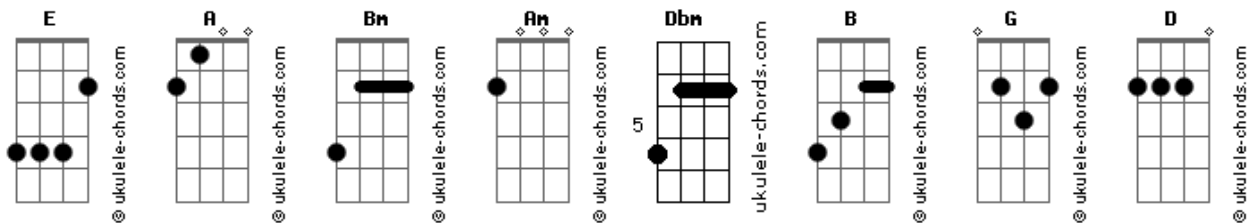

[Segunda Parte]

Now moving slowly, we circle through the square
 Two passing planets in the sweet, sweet summer air
 Sweet summer air

[Refrão]

And in the sunshine where we stand alone
 We came together with our secrets blown
 Our secrets blown

Acordes

[Riff 2]

[Ponte]

Reflected mountains in the lake
 Is this too much to take?
 Asleep or wide awake?
 And if the world begins to shake
 Would something have to break?
 We have to stay awake

[Pré-Refrão]

Packed with illusions, our world is turned around
 This golden circle has a most harmonic sound
 Harmonic sound

[Refrão]

And in the sunshine where we stand alone
 We came together with our secrets blown
 Our secrets blown

[Riff 1]
