

Paula Fernandes - Cheiro de Relva

Tom: C

(intro) C G F C G F C G F C G F Cm

Como é bonito estender-se no verão as cortinas do sertão
na varanda das manhãs

Deixar entrar pedaços de madrugada e sobre a colcha azulada

Dorme calma a lua irmã

Cheiro de relva traz do campo a brisa mansa que nos faz sentir

criança

a embalar milhões de ninhos

A relva esconde flores lindas orvalhadas quase

Sempre abandonadas nas encostas dos caminhos

A juriti madrugadeira da floresta com seu canto abre a festa

Revoando toda selva o rio manso caudaloso se agita

Parecendo achar bonita a terra cheia de relva

(C G F C G F C G F C G F Cm)

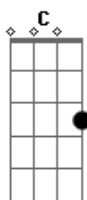

O sol vermelho se esquenta a aparece o vergel todo agradece

Pelos ninhos que abrigou botões de ouro se desprendem de seus galhos

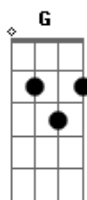

São as gotas de orvalho de uma noite

Que passou
