

Paula Fuga - The Sun Will Rise

Tom: G

^G So many times I try to get ahead in life

^C But something always happens

^G I'm back at where I began

^C I get so tired of tryin' and

^A I wanna know when it's gonna come

^A Oh I want you to know where I'm coming from

^A Through the dark I see the light

^G And I know it'll be alright

^A All I need is a little faith to get by

^G I know you're with me where ever I may be

^C I know you said you'd always be there

^G Oh lord I need you now

^C Upon my knees I pray

^G I have a dream I'd like to share with you

^C I've had the same one all my life

^G So please believe in me

^C Sometimes it gets so hard

^G To keep believing in yourself oh but you must above all else

^C You've got to hold your head up high

^G Oh listen to me soon, soon the storm will subside

^C And again at dawn the sun will rise

^A Soon the storm will subside

^A Again at dawn the sun will rise
