

Paula Siqueira - Close By My Heart

tom:

Bm

[Primeira Parte]

Thank you for the days you took me out
 And listened to my ramblings
 And for when I thought you were getting bored
 I would catch you smiling

[Pré-Refrão]

Sorry if it scared you
 Wish you could stay a little longer
 But I know there's no place in your heart right now
 For this feeling growing stronger
 I'll meet you somewhere along the way

[Refrão]

We were something good
 And I'll keep you in my memory
 Close by my heart
 Just in case you want to knock on it
 There's nothing to hold on

I will drag no aching
 I'll see you when I least expect to
 That's kind of our thing

[Segunda Parte]

Thank you for welcoming me
 When all my fears would enter in
 And for when I thought my tears would fall
 You would just distract me

[Pré-Refrão]

Sorry if it scared you
 Wish you could stay a little longer
 But I know there's no place in your heart right now
 For this feeling growing stronger
 I'll meet you somewhere along the way

[Refrão]

We were something good
 And I'll keep you in my memory
 Close by my heart

Just in case you want to knock on it
 There's nothing to hold on

I will drag no aching
 I'll see you when I least expect to
 That's kind of our thing

[Ponte]

We would never call us something
 What we were was good enough
 And I remember laying ?round and laughing
 ?Bout the silliest stuff
 And I remember turning ?round
 And catching your eyes on mine
 I would've ignored my blushing
 If I knew it'd be the last time

[Pré-Refrão]

Sorry if it scared you
 Wish you could stay a little longer
 But I know there's no place in your heart right now
 For this feeling growing stronger
 I'll meet you somewhere along the way

[Refrão]

We were something good
 And I'll keep you in my memory
 Close by my heart
 Just in case you want to knock on it
 There's nothing to hold on

I will drag no aching
 I'll see you when I least expect to
 That's kind of our thing

We were something good

And I'll keep you in my memory
 Close by my heart
 Just in case you want to knock on it
 There's nothing to hold on

I will drag no aching
 I'll see you when I least expect to
 That's kind of our thing
